Individual Courses

ICD-10-CM for Physician Coders!

$675 Tuition
All medical offices, outpatient providers and hospital coders will be required to file claims using ICD-10-CM to report diagnosis codes. Course description for this 12 lesson program is below!

ICD-10-PCS Inpatient Coding Course

$520 Tuition
Procedural Coding System version of ICD-10 is published separately from ICD-10-CM. Written by CMS for use in the United States, hospital coders will be required to master coding guidelines and conventions of this new system which vastly differs from the current ICD-9 volume III. See course description for this 8 lesson program below.

Will there be enough Qualified Train-the-Trainers this year to train trainers for 2013-2014?

Learning Objectives

To provide a comprehensive online/home study program to train experienced coders to understand ICD-10-CM and/or PCS diagnosis coding standards through reading, exercises and competency exams. This course is designed to train lead coders in clinics, hospitals and other facilities requiring diagnosis coding of health care claims.

If you are new to coding, this course is not for you! Our ICD-10-CM and/or PCS Training Program is specifically for medical billers, HIM professionals, experienced coders and certified coders.

OIG exclusion

Have you ever been?

1) Notified that you were under investigation for; investigated for; charged with; or convicted of any offense relating to Medicaid or Medicare fraud?

2) Have you ever been on the OIG exclusion list?

Membership Requirement (Restriction)

AIHC membership is open to the public, health care workers and administrators as well as certified healthcare auditors, collectors and compliance officers. To uphold to a higher standard, AIHC follows the guidelines recommended by the Office of the Inspector General (OIG) regarding retention of excluded individuals.

For many years the Congress of the United States has worked diligently to protect the health and welfare of the nation's elderly and poor by implementing legislation to prevent certain individuals and businesses from participating in Federally-funded health care programs. The OIG, under this Congressional mandate, established a program to exclude individuals and entities affected by these various legal authorities, contained in sections 1128 and 1156 of the Social Security Act, and maintains a list of all currently excluded parties called the List of Excluded Individuals/Entities. (See OIG website at www.hhs.gov/oig)

No individual whose name appears on the OIG Excluded Individuals Entities List may hold membership in AHIC; and any member whose name is added to this list will have his/her membership status revoked without refund.

"My signature below indicates I have read this restriction to membership and attest that I am not currently on the OIG exclusion list at the date this application has been submitted for membership to the American Institute of Healthcare Compliance."
